Dea Carson - Executive Director

Solvang Care by At Home Care

At Home Care Group - An ONYX Company is pleased to be providing services for Solvang residents with our AMAZING caregivers. We would like to make sure that we are able to help all residents who are requesting services and still be within our scope of what we can offer and able to provide.

At this time, we would like to have a caregiver here for service 7 days per week for 4 hours each morning starting at 7am until 11am and again in the evening at 5pm until 9pm.

All scheduling will be done in blocks of times as follows with the following requirements or minimums.

Medications - 15 min blocks AM and PM, scheduled within same hour as other medication clients. During this time caregivers will only be assisting with medications that are available within the med pack provided from BHS. Clients will need to have a med representative signed form on file and have all medications through BHS pharmacy. AHCG staff will assist with all documents required.

AM and PM Care - 30 min blocks. Caregivers can assist with tasks to help clients get ready for the day or end of the day.

Showers - 30 min blocks AM or PM. Can be added to AM or PM Care

Laundry - 1-hour blocks, Times to be determined with other schedules. If a caregiver has two laundry clients, they will retrieve laundry from both clients to begin washing. They then will return to each one individually to change the bedding for the week provided there is an extra set to be out on. When laundry has been washed and dried, the caregiver will return and fold and put away.

Housekeeping - Caregivers can provide some housekeeping as time permits within the current scheduled blocks. To receive more, we can offer a 2-hour block in which the caregiver is able to provide 2 hours of care including shower and laundry.

Please know we are going to provide schedules that are the best fit for everyone. However, during the scheduled blocks of time the caregiver is to remain with that client. If there is an emergency need, the caregiver can assess the situation when time is allowed. As much as we wish to be there for all emergencies and everyone's needs, we do have to make sure we are within our limits and policies. We will not refuse to help when help is needed but we are also no longer able to provide on-call help as needed.

Any time over the scheduled block of time will be a possible extra charge of 15 min. This will be determined by the caregiver's ability to clock in and out of each client's time block.

Please contact Dea - Executive Director, for more information or to set up services.
